

SANJAY KUMAR UMMADISETTI

ANDHRA PRADESH, INDIA

ummadisittysanjay@gmail.com | www.linkedin.com/in/sanjaykumar5555 | +91-8688836995

Profile

Highly motivated and detail-oriented python developer with a strong foundation in Basic of python, advance python like NumPy, Matplotlib, Pandas and modern web development python frameworks like Django, Flask, Rest API's. Recently graduated with a degree in Computer Science and completed several successful projects showcasing a blend of technical skills and creativity. Proficient in responsive web design, cross-browser compatibility, and performance optimization. Eager to apply my skills in dynamic environment, contribute to team projects, and learn from industry professionals.

Education

S.L.R.Prathibha model degree college. Bachelor of Science - Computer Science and Mathematics GPA: 7.3	June 2020 - July 2023 Tiruvuru, Andhra Pradesh
Nagarjuna Junior College. 12 th – Higher Secondary Board GPA: 9.17	June 2018 - March 2020 Tiruvuru, Andhra Pradesh

Experience

Intern, PinkMoon Technologies Private Limited

-college Website Clone

- Developed a fully functional clone of our college website.
- Implemented responsive design using HTML, CSS, JavaScript, and Bootstrap.
- Collaborated with a team to ensure project completion within deadlines.
- Utilized Git for version control, Debugging, and project management.

Projects

ATM Clone | Python, Django, SQL

- Implemented secure login system with user ID and PIN validation.
- Maintained a log of user transactions with timestamps.
- Included robust error handling for invalid inputs, insufficient funds, and session timeouts.
- Enabled balance inquiries, deposits, withdrawals, and fund transfers between accounts.

Google Play Store Analysis | Python, Pandas, Excel

- Analysed app categories, ratings, reviews, and pricing models.
- Identified factors influencing app ratings and user engagement.
- Visualized data trends to provide actionable insights for app developers and marketers.

RBI State Wise Analysis | Python, Pandas, Matplotlib, Excel

- Analysed population trends and growth rates across states.
- Assessed per capita income and its correlation with poverty levels.
- Identified socio-economic disparities and patterns in poverty distribution.
- Provided visualizations to highlight high and low-income states and their respective poverty rates.

Technical Skills

Programming Languages: Python, HTML, CSS, JavaScript.

Framework and library: AngularJS, Bootstrap, Django, Flask, Rest APIs, Panda, matplotlib, NumPy.

Tools & Technologies: Git, Git-hub, PyCharm, Visual Studio Code, AWS Basic.

Databases Technologies: MySQL, Oracle, MongoDB.

Achievements

Python Completion & Certifications:

- Gained a solid understanding of core Python concepts, including data structures, control flow, and functions.
- Acquired expertise in object-oriented programming (OOP), file handling, exception management, and module development.
- Certified in using Python libraries like Pandas, NumPy, and Matplotlib for data manipulation and visualization.
- Gained experience in web development using Django and Flask.

Web development Certifications:

- Created and launched responsive websites using HTML, CSS, JavaScript, and frameworks like Angular, resulting in a 30% increase in user engagement.
